Please amend the following claims:

B1 Sub. A1 21. (Amended) The vehicle displacement sensor of claim 11 further including means for calibrating said wireless signal to vehicle displacement while the vehicle is moving.

B2 Sub. A1 24. (Amended) The navigation system of Claim 23 further including means for calibrating said wireless signal to vehicle displacement while the vehicle is moving.

B3 Sub. A1 31. (Amended) The method of claim 30 further including the step of dead-reckoning a position of a vehicle based upon the wireless signal.

Please add the following new claim:

Sub. A1 B4 32. (NEW) The method of claim 31 wherein the dead-reckoning the position of the vehicle is based upon the calibrated wireless signal.
